

What

Mattapan Open Studios/Open Streets (MOS/OS) was established is to celebrate and uplift the built and cultural environments of Mattapan through arts, design and creative placemaking (placekeeping). Our goals are to:

- Promote the local arts, artists and the community cultural fabric
- Support community development
- Support economic development and;
- Shed positive light on the neighborhood

Why

Mattapan is a diverse and culturally rich neighborhood of Boston with an under-celebrated history. Yet here are a number of advocates, artists and organizers who help our community thrive.

In light of the lack of studio arts space, we **utilize non-traditional spaces** into free art showcase and activity sites open to the public. We also work on functional art and design projects that are resident-driven and supported.

How

Community and partners drive what we do. Many ideas were generated by residents. Every year, we add activities to fulfill our objective to provide Mattapan and visitors with positive experiences through art, design and multicultural engagement.

Thank You to Our Fall Partners:

Thank You to Our Funders:

Mattapan Open Streets/Open Studios is a project of Powerful Pathways, a social practice art, community planning and civic design non-profit organization, fiscally sponsored by Fractured Atlas.
